

PROJECT DATA SHEET

GAC Tanks

Cropston Water Treatment Works Contract Number C07/97

CLIENT:

Severn Trent Water Ltd
Alpha House
Heathcote Road
Warwick Business Park

Scope Of Work

The work comprised R.C. foundations for granular activated carbon (GAC) tanks, together with a R.C. pump well with structural steel/clad building above. This building houses new instrumentation and electrical panels.

A structural steel/clad building was constructed over the existing GAC filter tanks, which remained in service at all times during the construction period. These existing GAC tanks were eventually modified to sand filter tanks by VaTech Wabag.

All interconnecting D.I. pipe work up to 700mm Ø with corresponding overflow and inspection chambers.

Minor roadwork's, and block paving.

Contract Number (£1.9 Total)
£615,000 Civils
