

# Project Data Sheet

SGT3 Bund Wall Extension

Ockerhill Sub-Station, Tipton  
Contract Number C12/03

**Client:**

National Grid  
Century Way  
Leeds

## Scope Of Work

Alpha Construction provided a design and build solution to environmental improvements under the framework oil containment contract programme between October 2006 and May 2007.

Contract Value: £915,000

The works involved the upgrading of transformer bund walls including specialist lining, installation of a new oil containment drainage system complete with 2 number underground class/ fill retention oil separators. A ductile iron pipework system for emergency oil overflow protection was also installed, walkways within the bund walls were created using GRP mesh flooring and new roads constructed adjacent to structure deemed to be "at risk"

275KV - Retention Sperator
